Surgical thread made of braided polyester

# Getamed P

## Surgical thread made of braided polyester

### Application:

- Non-absorbable suture material for human surgery

### Product advantages:

- Comply with relevant standard regulation:
  - European Pharmacopeia
  - US-Pharmacopeia
  - Non-cytotoxic after sterilization (DIN EN ISO 10993-5:2009)
- High knot tensile strength
- Easy to use
- Highest quality, 100% Made in Germany

| Size   | USP 2-0         | USP 2-0         | USP 2-0         | USP 2-0         |
|--|-----------------|-----------------|-----------------|-----------------|
| Tensile strength                                       | 60 N / 6,12 kgf | 60 N / 6,12 kgf | 60 N / 6,12 kgf | 60 N / 6,12 kgf |
| Knot Tensile strength                                  | 29 N / 2,96 kgf | 29 N / 2,96 kgf | 29 N / 2,96 kgf | 29 N / 2,96 kgf |
| Diameter min   | 0,307 mm        | 0,307 mm        | 0,307 mm        | 0,307 mm        |
| Diameter max   | 0,342 mm        | 0,342 mm        | 0,342 mm        | 0,342 mm        |
| Diameter average                                       | 0,319 mm        | 0,319 mm        | 0,325 mm        | 0,325 mm        |
| Colour   | white           | green           | white           | green           |
| Finish   | uncoated        | uncoated        | silicon coated  | silicon coated  |
| Sterilization  | no              | no              | no              | no              |
| Make-up:<br>K80, K125, K160<br>(Double-flanged bobbin) | 1.000 – 10.000m | 1.000 – 10.000m | 1.000 – 10.000m | 1.000 – 10.000m |

Further types and make-ups upon request.
