

Gruschwitz is a leading european supplier of twisted yarns and sewing threads for technical applications made out of High Tech fibers, chemical fibers and natural fibers. We serve our customers with flexibility and quality awareness from the first idea up to the final series production. Gruschwitz has a succesfull track record of more than 200 years. You will find our products in automotive, medical, industrial and technical sewing threads applications.

For the expansion of our sales team we are looking for a

Sales Manager for France (male/female)

After you graduated from university or college you would like to work/you already worked with technical yarns and customers driven by a strong passion for sales. At the same time you like analytical challenges and conceptual work.

Your tasks:

- Management of our customer structure in France
- Identification and acquisition of new customers
- Coordination of development projects together with customers and our R+D department
- Management of price and terms/conditions
- Close cooperation with our customer service team in the day to day business
- Your travel activity should be around 80%

You will directly report to our Chief Sales Officer.

Your qualification:

You have an educational background in technical textiles, you are open for new challenges, you like to travel and work with different cultures. You are a great communicator and you enjoy the implementation of analytical developed solutions. It is easy for you to listen and to develop solutions in a team. Prerequisites are the ability to work autonomous, high self-motivation and a business fluent English or German.

Please send us your application papers including your availability.
