

One twist ahead

Getafil N

Polyamide 6.6 high tenacity filament sewing tread
for industrial applications

Getafil N

Polyamide 6.6 high tenacity filament sewing thread for industrial applications.

Fields of application:

- Leather goods
- High performance shoes (Hiking boots and trekking shoes, working shoes)
- Bags
- Heavy weight fabrics
- Filtration
- Technical fabrics

Product advantages:

- All-purpose sewing thread
- No fibre-fluff as these yarns are based on continuous filaments
- Clean appearance and good sewability
- High tenacity and high stretch recovery
- Good alkali resistance and excellent abrasion resistance

	Et. 20	Et. 30	Et. 40	Et. 60
Breaking strength (N):	98	66	50	33
Elongation (%):	24	23	23	23
Running length (m/kg):	6.250	9.350	12.400	18.300
Make up:	1.600 m KS	2.400 m KS	3.200 m KS	4.800 m KS
Packing unit:	8 KS	8 KS	8 KS	8 KS

Yarns are also available water repellent.

Further constructions, make ups and colour cards are available on request.
