

One twist ahead

Getafil P

Polyester high tenacity filament sewing thread
for industrial application

Getafil P

Polyester high tenacity filament sewing thread for industrial application.

Fields of application:

- Webbing for lifting and lashing, load restraint systems
- Leather goods, shoes, bags
- Heavy weight fabrics and tarpaulins
- Upholstery
- Filtration
- Technical fabrics

Product advantages:

- All-purpose sewing thread
- No fibre fluff as these yarns are based on continuous filaments
- Clear appearance and good sewability
- High tenacity
- Good UV-, weather- and acid-resistance
- High abrasion resistance
