

One twist ahead

Getastrong

Ultra high-strength sewing thread
with the highest requirements

Getastrong

Ultra high-strength sewing thread with the highest requirements, based on endless UHMW-PE from DSM Dyneema.

Areas of application:

- Lashing, lifting belts and round slings
- Safety workwear (e.g. cut resistant)
- Marine applications (e.g. ropes, sails and nets)
- Sewing thread for additional performance to textile products of UHMW-PE from DSM Dyneema

Product benefits:

- Increased UV resistance than polyester
- Low density (floating)
- Salt water and chemical resistant
- Extreme abrasion resistance

	Getastrong Et. 11	Getastrong Et. 20
Maximum tensile strength:	250 N	560 N
Elongation:	5,2 %	5,1 %
Make-up:	250 gr., 500 gr. KS	250 gr., 500 gr. KS
Packaging:	8 KS	8 KS

Other constructions are available upon request.
