

One twist ahead

Selvedge yarns

Suitable for all types of weaving machines

Selvage yarns

Suitable for all types of weaving machines

Selvage yarns for air-jet, rapier and projectile looms

Applications:

- For fine to heavy fabrics, home textiles, airbags, awnings, linings and filtration fabrics

Advantages:

- Supports and improves subsequent weaving and finishing processes

Technical Data	SLG 2002 PES high tenacity 80/2	SLG 1000 PA high tenacity Nm 90/2	Multi-74 PES Multifilament NM 135/1	Mono-40 PA Monofilament 44dtex
Tensile Strength	1451 cN (64 cN/Tex)	1519 cN (69 cN/Tex)	527 cN (71 cN/Tex)	213 cN (48 cN/Tex)
Elongation at break (%)	13,5%	16,6%	17,5%	32,0%
Shrinkage	1,5%	3,0%	1,5%	3,0%

Further constructions and make ups are available upon request.
